Scott -

The contract sounds fine. When you have a better idea about the budget for this festival, I can have a resolution put on to pay the balance that was not awarded in the first contract.

Please send me the rack card as soon as you can. Having 7,500 printed by Tuesday morning is cutting it close as we speak. The print shop is capable given sufficient time.

Also, please forward the updated Press Release. I will have Public Information Blast fax it to all local media.

Thanks!
