**Re: Renna v. County of Union and Marlena Russo**  
**Docket No.: UNN-L-3253-14**

Dear Mr. Trelease:

I have had an opportunity to peruse the County's Emergency Operations Plan (although not the compact discs). I am uncertain as to how the County can assert an exemption for the entire contents of the large Redwell you provided. Indeed, some materials appear to be publically - disseminated brochures; the first "annex" is a resolution adapted by the Freeholders.

At this time, I am reluctant to turn over the materials without giving the County at least an opportunity to explain their sensitivity. Accordingly, I am directing you to review the materials you submitted to me and reconsider your position as to whether everything in the plan is exempt from OPRA production, or whether at least some parts may be produced without a threat to public safety.<sup>1</sup>

Please provide your written response by January 20, 2015.

Very truly yours,

  
Camille M. Kenny, J.S.C.

Cc: Walter Luers, Esq.

<sup>1</sup> I do not expect release of personal contact information for those charged with effectuating the various "annexes".
