Union County has a solid working partnership with our 21 municipalities. One of our top priorities has been to expand shared services between the county and our municipalities. As we increasingly share more services, our partnership will grow even stronger.

It's simple. The more services we share - from public safety to transportation to recreation - the more tax dollars we'll save.

Union County is at the forefront of the state's initiative to reduce costs through greater shared services among governmental agencies. That's why we're so proud to be one of only two counties to receive a \$104,500 state grant to accelerate shared services.

For more information on our shared services programs, visit us on the web at: www.ucnj.org/sharedservices/. By sharing more services, we're even more connected to you.

Sincerely,
